Assumptions:

Version: April 2026

¹ Fee does not include garages, porches, decks, or patio covers. A 400 sqft garage adds approximately \$300 in fees.

² Fee assumes a single-zone ductless HP, dryer, kitchen, and one exhaust fan per bathroom.

³ Fee assumes one kitchen and one bathroom.

⁴ Fee assumes one kitchen and two bathrooms.

⁵ Fee assumes one kitchen and three bathrooms.

⁶ Fee assumes installation as an Accessory Dwelling Unit. Additional fees apply if not an ADU.

⁷ Fee assumes the property is served with water and sewer services.

***This table is an illustration of the fees represented in the City of Albany's adopted fees and is not a guaranty of the specific fees or amounts appropriate for your project. Please contact us at cd.customerservice@albanyoregon.gov if you have any questions.**

PUBLIC WORKS DEFINITION OF FEES

SYSTEM DEVELOPMENT CHARGES:

System Development Charges (SDCs) are those fees charged to satisfy that portion of new demand on parks, transportation, water, and wastewater services generated specifically by a new development. Adequate funding for growth-driven capital improvements is necessary to maintain health, safety, commerce, and quality of life within a community. In an effort to secure a constant, equitable framework by which SDCs are collected and disbursed the Oregon State Legislature adopted a State law (House Bill 3224) which regulates SDCs.

The bill establishes requirements for the calculation of fees, and specifies that fees collected must be spent on the capital improvement projects for which they have been assessed. The City is required to provide an annual accounting of SDCs showing the amount collected for each system and the projects that were funded.

SDCs are divided into two categories:

- (1) Reimbursement Fees, which pertain to existing capital improvements, or those under construction, and
- (2) Improvement Fees, which pertain to future capital improvements. An SDC can be assessed for either fee category, or for both. Credit may be given against an SDC when a developer is required to construct a qualified public improvement that meets certain conditions.

SYSTEM DEVELOPMENT CHARGE DEFERMENT:

SDC Deferral program allows for residential developments to postpone payment of SDCs fees to the time of final inspection on a building permit. SDC must be paid in full prior to requesting final inspections. The SDC Deferral Program is only applicable to residential development projects subject to conditions outlined in Albany Municipal Code 15.16.110, including:

- (1) Residential project/permits in which a certificate of occupancy is required
- (2) Project has received all applicable land use approvals and building permit are ready for issuance
- (3) Applicants must submit a request for deferral on form provided by the City including application fee
- (4) SDC Deferral and Deferred payment is executed prior to permit issuance.

Please call Engineering Services at (541) 917-7676 for more information.

SEWER/WATER/STORM/STREET CONNECTION CHARGES:

A Connection Charge shall be due and payable when any property connects to the City's sanitary sewers, water, storm drains, and/or improved streets, which no assessment has previously been levied or for which the cost of constructing the sanitary sewer, water distribution facility, storm drain, and/or improved streets has not been paid by the property.

At the time when a development request is initiated, the Finance Department along with the Public Works Department will determine when the sewer/water/storm/streets were built, and how they were paid for to see if a "connection" fee is due. Engineering Services will determine the amount based on the formula in the Municipal Code. **Please call Engineering Services at (541) 917-7676 for more information.**

Prior to planning a development or purchasing a piece of property, it is recommended that a check on the property be completed to see if connection fees are due. These fees will not usually show up as an encumbrance in a preliminary title report.

EROSION PREVENTION AND SEDIMENT CONTROL:

The City of Albany's Erosion Prevention and Sediment Control (EPSC) program has been established as a part of the City's comprehensive Stormwater Management Plan. This plan addresses federal water quality mandates and helps set local procedures to protect the quality of our waterways. The EPSC program is designed to protect local waterways and the City's stormwater system from pollution generated by ground disturbing activities. **Please call Engineering Services at (541) 917-7676 for more information.**

PARKS AND RECREATION FEES

Parks SDC fees are due and payable upon issuance of a building permit for new on-site residential construction, including additions to residential dwellings. The fee applies to the particular lot or tract for which it is issued.

In the case of a manufactured home park, 50 percent of the Parks SDC shall be paid at the time of land use approval, assuming each space is occupied by a 1,500 square foot home. The remaining balance of the SDC shall be due at the time of the placement permit for each home.

The owner of the property shall be given credit only for those Parks SDC fees that were previously paid on the same parcel. No Parks SDC fees shall be imposed if the structure is destroyed by fire, flood, wind, or act of God provided 1) Parks SDC fees were previously paid; and 2) the size of the dwelling is not increased.

The Parks SDC fees are based on the methodology provided in the Parks System Development Charge Update document adopted by council on May 25, 2022. Please call the Parks and Recreation Department at (541) 917-7777 for more information about the SDCs.

Greater Albany Public Schools Construction Excise Tax

Cities of Albany, Millersburg & Tangent Information

What is the Construction Excise Tax for the Greater Albany Public School District?

In 2007 the Oregon Legislature passed SB 1036, a law that provides a financial tool to help school districts pay for capital improvements, expanded facilities, and equipment needed as a result of community growth. The law authorizes a school district, in cooperation with cities and counties, to tax new residential and non-residential development. Specifically, the tax applies to improvements to real property that result in a new structure or additional square footage to an existing structure.

What does the tax pay for?

The excise tax revenue will be used for capital improvements such as acquisition of land, the construction, reconstruction or improvement of school facilities; acquisition or installation of equipment, furnishings, or other tangible property; related architectural, engineering expenses, legal expenses or similar costs related to capital improvements. The excise revenue allows the district to purchase and prepare sites for future school facilities and/or to help defray the cost of new school facilities.

Who has to pay and when?

The tax is required to be paid by the developer or property owner who is developing property in the Greater Albany Public School District at the time when he or she wishes to have a permit issued. A permit will not be issued unless the tax is paid or unless an approved exemption is submitted on the Exemption Form.

Who is exempt from paying the tax?

The following are exempt from the Construction Excise Tax:

1. Private school improvements;
2. Public improvements as defined in ORS 279A.010;
3. Residential housing that is guaranteed to be affordable (as defined by SB 1036, Section 3[3]);
4. Public or private hospital improvements;
5. Improvements to religious facilities primarily used for worship or education associated with worship;
6. Agricultural buildings as defined by ORS 455.315 (2)(a);
7. Non-profit organizations (501[c][3]);
8. Any construction, remodel, or expansion of a detached non-occupied residentially related building such as a garage, shop or barn;
9. The replacement of a structure, either residential or nonresidential, which replaces an existing structure up to the square footage of the original structure.

How much is the tax?

- \$1.70 per square foot on residential construction;
- 85 cents per square foot on non-residential construction. For non-residential construction only, the excise tax is limited to a maximum of \$42,400 per structure.

Whom can I contact for more information?

If you have additional questions, you may contact the Greater Albany Public School District's Business Director, Jane Nofziger via email at jane.nofziger@albany.k12.or.us or by phone 541-967-4505.
