Utility Billing Management Software RFP, Clarification

---

The purpose of this document is to clarify insurance requirements stated in the RFP solicitation document.

1. Regarding Umbrella Liability coverage allowable for insurance coverages:

The Umbrella/Excess Liability cannot be used "in lieu" of Cyber Liability, nor can it be "in lieu" of Auto liability if the vendor does not have a primary auto policy in place. Of course, the Umbrella/Excess liability policy can help meet the Auto Liability requirements, but if there is no primary auto then the Umbrella has nothing to combine with to meet the requirements. Cyber Liability must be provided in the amounts and as stated in the RFP.
