

APPENDIX D – DESIGNATION OF MAJOR EQUIPMENT OR MATERIALS MANUFACTURERS

(To be submitted with Bid)

Below is a tabulation of manufacturers for major equipment and materials to be provided on this project. Bidders must circle the name of one and only one of the named suppliers or manufacturers for each item in the table. By so doing, Bidders certify that the manufacturers so indicated were used in developing their bid. Failure to circle a manufacturer for any single equipment item listed or circling more than one manufacturer for an item may render the bid unresponsive and may be a basis for rejection of the bid.

In addition to the circled manufacturer, the bidder may enter an “or equal” alternative for those items for which “or equals” is listed in the Specifications. At the Owner’s discretion, alternative manufacturers may be considered after contract award. However, they will not be used for determining the basis for contract award. The successful Bidder will be required to submit proposed equivalent requests for each “Or Equal” entered in accordance with the requirements of Section 01300. Such requests must be made within the time specified.

No changes or substitutions from the listed manufacturers will be allowed without the express written approval of the Engineer.
