INTRODUCTION

We are proud to present this, the 1971 edition of the Albany, Oregon City Directory. We have included in our canvass area; Albany, Summer Area, Rural Area, Rural Route Maps and Tangent Area which we have been advised is the pertinent service and market region for this area.

Every effort has been expended in making this volume as complete as humanly possible. The information was gathered by an actual house to house canvass and compiled in such a way as to insure maximum accuracy. The time between final check of information and delivery has been minimized by the use of modern data processing technology and the fastest "in house" production capability in the industry.

It has always been our policy to provide accurate and comprehensive directory service to those communities that desire the "finest". We realize however that some errors and omissions are inevitable and earnestly request that these be brought to our attention. These errors and omissions will be corrected in the next edition of the directory.

Making use of this directory for any other purpose than as a reference volume or reproduction of any part of this directory is expressly prohibited without written permission from the publisher.

Our membership in the *Association of North American Directory Publishers assures the communities we serve that we are constantly striving to improve our products and the standards of the industry in general.

GENERAL INFORMATION

Albany, the seat of fertile and lovely Linn County, is the "Hub of the Willamette Valley". It has excellent transportation facilities, beautiful homes, up-to-date schools, and outstanding civic institutions. Easy-to-reach Albany is at the Junction of U. S. Highways #99 and #20, twenty-two miles south of Salem and sixty-nine miles south of Portland.

Agriculture is highly diversified and the climate relatively free from extremes. The land, a combination of green valleys and timbered hills, produces bumper harvests of fruits, vegetables, filberts, grains, and other crops. Irrigated pastures provide lush feed for the herds of dairy and beef cattle. Poultry and poultry products, including turkeys are money-makers too. Meat packing plants and milk condensary are located in fast-growing Albany.

Linn County is also the home of a vast timber empire, with sawmills, plywood mills, and a furniture factory busy converting tall trees to finished products. Albany is also the regional headquarters of the U. S. Bureau of Mines. Numerous other industries indicate a progressive outlook.

Outdoor recreation at its finest is yours here. A large portion of the county is being set aside to provide an unspoiled wilderness area for escape from crowded, noisy cities. Beautiful Clear Lake is nearby; mountain scenery, deep forests, lava beds, Alpine lakes, sparkling streams, excellent hunting and fishing are all at hand. The popular Hoodoo Ski Bowl is an easy drive from Albany, and the blue Pacific with its scenic beaches is not far.

Albany and Linn County offer a way of life that is truly happy and contented.
