History

Albany, Oregon

Albany, the seat of fertile and lovely Linn County, is the "Hub of the Willamette Valley." The first white settlers came to Albany in 1846. Two years later, Walter and Thomas Monteith named the city after their former home in New York.

Today Albany is a thriving valley town, more eager than many communities to welcome new, clean industry.

Albany is in the center of Oregon's Willamette Valley, at the confluence of the Willamette and Calapooia Rivers. It is at the intersection of Interstate 5 and U.S. Highway 20. Portland is 70 miles north and Eugene is 40 miles to the south.

The community's present economy relies heavily on three industries: rare metals, food products, lumber and wood products. The production of rare metals such as zirconium, molybdenum, columbium and titanium, has been important to the Albany area ever since the Bureau of Mines established a research facility here in 1943. Teledyne Wah Chang employs more than 1,500 people in the area with an annual payroll exceeding \$50 million. Other leading contributors to the economy are Rem Metals Corporation, Oregon Metallurgical Corporation and Northwest Industries, Inc.

Albany leads other Linn County cities in employment in food and related products, providing 95 percent of the county employment in food processing. However, only five percent of Albany's total employment is in this sector.

Oregon Freeze Dry Foods, Inc. is the largest multi-purpose freeze drying plant in the United States. Smoke-Craft is the world's largest producer of beef jerky and the Stokely-Camp Albany plant processes frozen strawberries, green beans, corn and squash.

A growing center of the nations metals industry, Albany is home for U.S. Bureau of Mines R & D Laboratories. In addition, metals firms such as Teledyne, Oregon Metallurgical, Ti-Line, Albany Titanium, among others, add to the local economy. Wood products continues as an employment base for the area with such firms as Willamette Industries and Southwest Forest industries.

Additional contributors to the Albany economy are James River/Dixie Northern Company in Halsey, Hewlett-Packard in Corvallis and Mt. Jefferson Woolens in Jefferson.

Called "The Grass Seed Capitol of the World," Linn County in the Willamette Valley, serves as a center for grass seed

production. In addition, sheep, cattle, food processing and dairy production complete a strong agricultural community. Additional employment, approximately 25 per cent, is in government, half of which is in education.

An active community, Albany was named a 1984-85 designee for the national "All-American City" award. Albany boasts the largest national Veterans Day celebration, is home for the World Championship Timber Carnival, attracting more than 100,000 people annually, the Spring Arts Festival and Summer Fling/Jazz Festival.

Albany also has many fine old historical homes demonstrating several types of Victorian architecture, including the late Gothic Revival style, with the stone imported by Italian masons; the simplicity of Colonial Revival; the Queen Anne style, with its variety of texture and form; and the French Empire II style with mansard roof and dormer windows. A guided tour of some of these fine old homes is available through the Albany Area Chamber of Commerce.

ACCURACY

It's an admirable goal to shoot for in publishing City directories...

But - with the thousands of subscribers to be listed, changed addresses and new numbers, we hope you understand how an error could occur.

Your name, address and telephone number in this directory likely are correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing our business office.

We'll correct our records promptly so it will appear the way it should in the next issue.

Telephone Numbers in Sequence Order

More Than One Adult Using The Same Telephone. The Telephone Book Probably Lists Only One Person

What's In A Phone Number?

ABOUT THE FIRM

Who called me? When your call back message gives a telephone number only - or includes a common surname such as Jones, Smith, Brown etc. - the Numerical Telephone Locator will assist in determining correct firm name. Make use of both Alphabetical and Street Guide Information to

establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have necessary records, files or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL

Who called me? When only a telephone number is

known, the Numerical Telephone Locator will assist in determining the name of the individual - this information combined with other sections of your City Directory will quickly establish such information as wife's name, place of employment, title, home address, business address and other necessary information.

A Moral in the Story.

Hank woke up in his advertised bed, slipped into his advertised slippers, and strolled across his advertised carpet. After showering in his advertised shower, he dressed in his advertised clothes, ate an advertised breakfast, petted his advertised dog, and drove away in his advertised car. At work, he sat at his advertised desk, turned on his advertised lamp, and adjusted his advertised watch.

Straightening his advertised tie, he lamented over the fact that sales were down, he had no customers, and things in general were poor. After sipping some advertised coffee, he resolved to take his unadvertised business and advertise it for sale.

So remember, it does pay to advertise.

Lack of advertising . . . beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

to appear in our next edition.**
